The line item instructions should be read in conjunction with the Glossary and other sections of these instructions. See the discussion of the Organization of the Instruction Books in the General Instructions.

### SCHEDULE RI -- INCOME STATEMENT

#### General Instructions

Report in accordance with these instructions all income and expense of the bank for the calendar year-to-date. Include adjustments of accruals and other accounting estimates made shortly after the end of a reporting period which relate to the income and expense of the reporting period.

Banks that began operating during the year-to-date reporting period should report in the appropriate items of Schedule RI all income earned and expense incurred since commencing operations and all pre-opening income earned and expenses incurred from inception until that date.

If the bank entered into a business combination which became effective during the year-to-date reporting period and which has been accounted for as a pooling of interests, report the income and expense of the combined business for the entire year-to-date. If the bank entered into a business combination which became effective during the reporting period and which has been accounted for as a purchase, report the income and expense of the acquired bank or business only after its acquisition. If the bank was acquired in a transaction which became effective during the reporting period and push down accounting was used to account for the acquisition, Schedule RI should only include amounts from the date of the bank's acquisition through the end of the year-to-date reporting period. For further information on poolings of interests, purchase acquisitions, and push down accounting, see the Glossary entry for "business combinations."

Schedule RI is one of four schedules (and one memorandum item) in the FFIEC 033 and 034 Reports of Condition and Income in which banks are permitted to report loan detail in terms of general loan categories that are based upon each bank's own internal loan categorization system. While the definitions for the general loan categories are left to the choice of each reporting bank, each bank must use consistent definitions for these categories in each of the four schedules and the memorandum item. For further information, refer to the discussion of "Reporting of Loan Detail by Banks with Assets of Less Than \$300 Million and No Foreign Offices" in the General Instructions section of this book.

**Item Instructions****Item No.    Caption and Instructions****1    Interest income:**

- 1.a    Interest and fee income on loans.** Report in the appropriate subitem all interest, fees, and similar charges levied against or associated with all assets reportable as loans in Schedule RC-C, part I, items 1 through 8 on the FFIEC 034; items 1 through 9 on the FFIEC 031, 032, and 033.

Deduct interest rebated to customers on loans paid before maturity from gross interest earned on loans; do not report as an expense.

Include as interest and fee income on loans:

- (1) Interest on all assets reportable as loans extended directly, purchased from others, sold under agreements to repurchase, or pledged as collateral for any purpose.
- (2) All yield-related fees on loans held in the bank's portfolio. Report only the bank's proportional share of yield-related fees collected in connection with a loan syndication or participation that are not passed through to another lender.
- (3) Loan commitment fees recognized as described under the Glossary entry for "loan fees."
- (4) Investigation and service charges, fees representing a reimbursement of loan processing costs, renewal and past-due charges, prepayment penalties, and fees charged for the execution of mortgages or agreements securing the bank's loans.
- (5) Accretion of discount on acceptances, loans secured by real estate (including points charged), and other loans. Deduct amortization of premium on loans secured by real estate or other loans from gross interest on loans.
- (6) Charges levied against overdrawn accounts based on the length of time the account has been overdrawn, the magnitude of the overdrawn balance, or which are otherwise equivalent to interest. See exclusion (5) below.

Exclude from interest and fee income on loans:

- (1) Fees that are not yield-related, such as management fees and servicing fees on real estate mortgages or other loans which are not assets of the bank (report as "Other fee income" in item 5.b.(1) on the FFIEC 034; item 5.f.(1) on the FFIEC 031, 032, and 033).
- (2) Charges to merchants for the bank's handling of credit card or charge sales when the bank does not carry the related loan accounts on its books (report as "Other fee income" in item 5.b.(1) on the FFIEC 034; item 5.f.(1) on the FFIEC 031, 032, and 033). Banks may report this income net of the expenses (except salaries) related to the handling of these credit card or charge sales.

**Item No.    Caption and Instructions**

- 1.a**  
(cont.)
- (3) Net gains (losses) from the sale of all assets reportable as loans. Banks should consistently report net gains (losses) either as "All other noninterest income" in item 5.b.(2) on the FFIEC 034; item 5.f.(2) on the FFIEC 031, 032, and 033 or as "Other noninterest expense" in item 7.c. Refer to the Glossary entry for "transfers of financial assets."
  - (4) Reimbursements for out-of-pocket expenditures (e.g. for the purchase of fire insurance on real estate securing a loan) made by the bank for the account of its customers. If the bank's expense accounts were charged with the amount of such expenditures, the reimbursements should be credited to the same expense accounts.
  - (5) Transaction or per item charges levied against deposit accounts for the processing of checks drawn against insufficient funds that the bank assesses regardless of whether it decides to pay, return, or hold the check, so-called "NSF check charges" (report as "Service charges on deposit accounts (in domestic offices)," in item 5.a on the FFIEC 034; item 5.b on the FFIEC 031, 032, and 033; or, if levied against deposit accounts in foreign offices, in item 5.f.(1), "Other fee income," on the FFIEC 031). See inclusion (6) above.

If the absolute value of the dollar amount of net gains (losses) on other real estate owned, net gains (losses) on sales of loans and leases, or net gains (losses) on sales of premises and fixed assets exceeds ten percent of the amount reported in this item, report the dollar amount of this individual component of "All other noninterest income" in Schedule RI-E, item 1.a, 1.b, or 1.c, respectively. Include all gains and losses recognized on sales or other disposals of other real estate owned, increases and decreases in the valuation allowance for foreclosed real estate, and write-downs of other real estate owned subsequent to acquisition (or physical possession) charged to expense during the calendar year to date. Do not include as a loss on other real estate owned any amount charged to the allowance for loan and lease losses at the time of foreclosure (or physical possession) for the difference between the carrying value of a loan and the fair value less cost to sell of the foreclosed real estate.
  - (d) Personal property acquired for debts previously contracted (such as automobiles, boats, equipment, and appliances).
  - (e) Coins, art, and other similar assets.
  - (f) Branches (i.e., where the reporting bank sells a branch's assets to another depository institution which assumes the deposit liabilities of the branch).

  - (13) Research and development costs and costs incurred in the internal development of computer software.

Banks should consistently report these net losses (gains) either in this item or in Schedule RI, item 5.b.(2) on the FFIEC 034, item 5.f.(2) on the FFIEC 031, 032, and 033.

**7.c**        Exclude from other noninterest expense:  
(cont.)

- (2) Expenses incurred in the sale of preferred and common stock (deduct such expenses from the sale proceeds and credit the net amount to the appropriate stock account. For perpetual preferred and common stock only, report the net sales proceeds in Schedule RI-A, item 5, "Sale, conversion, acquisition, or retirement of capital stock, net").
- (3) Depreciation and other expenses related to the use of bank-owned automobiles, airplanes, and other vehicles for bank business (report in Schedule RI, item 7.b, "Expenses of premises and fixed assets").

**7.d**        **Total noninterest expense.** Report the sum of items 7.a through 7.c.

**8**        **Income (loss) before income taxes and extraordinary items and other adjustments.** Report the bank's pretax operating income.

On the FFIEC 034, this amount will generally be determined by taking item 3, "Net interest income," minus items 4.a, "Provision for loan and lease losses," and 4.b, "Provision for allocated transfer risk," plus item 5.c, "Total noninterest income," plus or minus item 6.a, "Realized gains (losses) on held-to-maturity securities," plus or minus item 6.b, "Realized gains (losses) on available-for-sale securities," minus item 7.d, "Total noninterest expense."

On the FFIEC 031, 032, and 033, this amount will generally be determined by taking item 3, "Net interest income," minus items 4.a, "Provision for loan and lease losses," and 4.b, "Provision for allocated transfer risk," plus item 5.g, "Total noninterest income," plus or minus item 6.a, "Realized gains (losses) on held-to-maturity securities," plus or minus item 6.b, "Realized gains (losses) on available-for-sale securities," minus item 7.d, "Total noninterest expense." If the result is negative, enclose it in parentheses.

**9**        **Applicable income taxes (on item 8).** Report the total estimated federal, state and local, and foreign income tax expense applicable to item 8, "Income (loss) before income taxes and extraordinary items and other adjustments." Include both the current and deferred portions of these income taxes. If the amount is a tax benefit rather than tax expense, enclose it in parentheses.

Include as applicable income taxes all taxes based on a net amount of taxable revenues less deductible expenses. Exclude from applicable income taxes all taxes based on gross revenues or gross receipts (report such taxes in Schedule RI, item 7.c, "Other noninterest expense").

**Item No.    Caption and Instructions**

**9**    Include income tax effects of changes in tax laws or rates. Also include the effect of changes in the valuation allowance related to deferred tax assets resulting from a change in estimate of the realizability of deferred tax assets, excluding the effect of any valuation allowance changes that are charged or credited directly to the separate component of equity capital for "Net unrealized holding gains (losses) on available-for-sale securities" (Schedule RC, item 26.b).

(cont.)

Include the tax benefit of an operating loss carryforward or carryback for which the source of the income or loss in the current year is reported in Schedule RI, item 8, "Income (loss) before income taxes and extraordinary items and other adjustments."

Also include the dollar amount of any material adjustments or settlements reached with a taxing authority (whether negotiated or adjudicated) relating to disputed income taxes of prior years.

Exclude the estimated federal, state and local, and foreign income taxes applicable to:

- (1) Schedule RI, item 11, "Extraordinary items and other adjustments, net of income taxes."
- (2) Schedule RI-A, item 9, "Cumulative effect of changes in accounting principles from prior years."
- (3) Schedule RI-A, item 10, "Corrections of material accounting errors from prior years."
- (4) On the FFIEC 031 only, Schedule RI-A, item 12, "Foreign currency translation adjustments."

Refer to the Glossary entry for "income taxes" for additional information.

**10**    **Income (loss) before extraordinary items and other adjustments.** Report the difference between item 9, "Applicable income taxes (on item 8)," and item 8, "Income (loss) before income taxes and extraordinary items and other adjustments." If the amount is negative, enclose it in parentheses.

**11**    **Extraordinary items and other adjustments, net of income taxes.** Report the total of the transactions listed below, if any, net of any applicable income tax effect. If the amount reported in this item is a net loss, enclose it in parentheses. State the dollar amount and provide a description of each transaction included in this item and any applicable income tax effect of the transaction in Schedule RI-E, item 3.

Include as extraordinary items and other adjustments:

- (1) The material effects of any extraordinary items. Extraordinary items are very rare and the criteria which must be satisfied in order for an event or transaction to be reported as an extraordinary item are discussed in the Glossary entry for "extraordinary items."
- (2) Material aggregate gains or losses from extinguishments of the reporting bank's own debt unrelated to sinking fund requirements, as determined in accordance with the provisions of FASB Statement No. 4, as amended.

**Item No.    Caption and Instructions**

- (3) Material aggregate gains on troubled debt restructurings of the reporting bank's own debt, as determined in accordance with the provisions of FASB Statement No. 15.
  - (4) The cumulative effect of all changes in accounting principles except for those required to be reported in Schedule RI-A, item 9, "Cumulative effect of changes in accounting principles from prior years." Refer to the Glossary entry for "accounting changes" for further discussion of changes in accounting principles.
  - (5) Material aggregate gains or losses from disposals of segments of the bank's business, as determined in accordance with the provisions of APB Opinion No. 30.
  - (6) Material net gains or losses from disposals of significant assets within two years after a pooling of interests business combination.

Exclude from extraordinary items and other adjustments:

- (1) Net gains or losses from the sale or other disposal of:
  - (a) All assets reportable as loans and leases in Schedule RC-C.
  - (b) Premises and fixed assets.
  - (c) Other real estate owned.
  - (d) Personal property acquired for debts previously contracted (such as automobiles, boats, equipment, and appliances).
  - (e) Coins, art, and other similar assets.
  - (f) Branches (i.e., where the reporting bank sells a branch's assets to another depository institution which assumes the deposit liabilities of the branch).

For each of the above categories, banks should consistently report net gains or losses either as "Other noninterest income" in Schedule RI, item 5.b.(2) on the FFIEC 034; item 5.f.(2) on the FFIEC 031, 032, and 033, or as "Other noninterest expense" in Schedule RI, item 7.c.

- (2) Write-downs of the cost basis of individual held-to-maturity and available-for-sale securities for other than temporary impairments (report in Schedule RI, item 6.a, "Realized gains (losses) on held-to-maturity securities," and item 6.b, "Realized gains (losses) on available-for-sale securities," respectively).
- 12      Net income (loss).** Report the sum of items 10 and 11. This item must equal Schedule RI-A, item 4, "Net income (loss)." If this amount is a net loss, enclose it in parentheses.

**Memoranda****Item No.    Caption and Instructions**

- 1    Interest expense incurred to carry tax-exempt securities, loans, and leases acquired after August 7, 1986, that is not deductible for federal income tax purposes.** Report the bank's best estimate of the amount of the year-to-date interest expense included in Schedule RI, item 2.f, "Total interest expense," that is subject to a 100 percent loss of deductibility for federal income tax purposes because it is deemed to have been incurred to carry tax-exempt securities, loans, and leases of states and political subdivisions in the U.S. acquired after August 7, 1986. Tax-exempt securities, loans, and leases are those securities, loans, and leases of states and political subdivisions in the U.S. whose interest is excludable from gross income under the regular tax system for federal income tax purposes, regardless of whether the income must be included in the bank's alternative minimum taxable income.

Exclude from this item interest expense incurred to carry (1) tax-exempt securities, loans, and leases of states and political subdivisions in the U.S. acquired after December 31, 1982, but before August 8, 1986, and (2) so-called "Qualified tax-exempt obligations" acquired after August 7, 1986, 20 percent of which is not deductible for federal income tax purposes.

The general formula that may be used for computing the amount of interest expense that is subject to a 100 percent loss of deductibility is as follows:

$$\frac{\begin{array}{l} \text{Tax-exempt securities, loans, and leases of} \\ \text{states and political subdivisions in the U.S.} \\ \text{acquired after August 7, 1986 (excluding} \\ \text{"Qualified tax-exempt obligations")} \\ \hline \text{(Year-to-date average)} \end{array}}{\text{Total assets (Year-to-date average)}} \quad \times \quad \begin{array}{l} \text{Year-to-date} \\ \text{total interest} \\ \text{expense (Schedule} \\ \text{RI, item 2.f)} \end{array}$$

For the March 31, June 30, and September 30 Call Reports, the amount reported in Memorandum item 1 should not be an estimate of the amount of interest expense that will not be deductible for the entire calendar year.

- 2    Income from the sale and servicing of mutual funds and annuities (in domestic offices).** Report the amount of income earned by the reporting bank during the calendar year to date from the sale and servicing of mutual funds and annuities (in domestic offices).

Include in this item:

- (1) Income earned in connection with mutual funds and annuities that are sold on bank premises or are otherwise sold by the reporting bank, through a bank subsidiary, or by affiliated or unaffiliated entities from whom the bank receives income. This income may be in the form of fees or sales commissions at the time of the sale or fees, including a share of another entity's fees, that are earned over the duration of the account (e.g., annual fees, Rule 12b-1 fees or "trailer fees," and redemption fees). Commissions should be reported as income as earned at the time of the sale (i.e., on an accrual basis), but may be reported as income when payment is received if the results would not differ materially from those obtained using an accrual basis.

**Memoranda****Item No.    Caption and Instructions**

- 2** (2) Income from leasing arrangements with affiliated and unaffiliated entities who lease  
(cont.) space in bank offices for use in selling mutual funds and annuities. Income from leasing arrangements should be reported as income as earned (i.e., on an accrual basis), but may be reported as income when payment is received if the results would not differ materially from those obtained using an accrual basis.
- (3) Fees for providing investment advisory services for proprietary mutual funds and annuities.
- (4) Fees for providing securities custody, transfer agent, and other operational and ancillary services to mutual funds and annuities that are sold on bank premises or are otherwise sold by the reporting bank, through a bank subsidiary, or by affiliated or unaffiliated entities from whom the bank receives income at the time of the sale or over the duration of the account.

Also include income from sales conducted through the reporting bank's trust department that are not executed in a fiduciary capacity (e.g., trustee, executor, administrator, conservator), but exclude income from sales conducted by the trust department that are executed in a fiduciary capacity.

In general, this income will have been included in the amount of "Other fee income" reported in Schedule RI, item 5.b.(1) on the FFIEC 034; item 5.f.(1) on the FFIEC 031, 032, and 033. However, income from leasing arrangements, or the portion thereof, that is fixed in amount and does not vary based on sales volume may have been reported as a deduction from Schedule RI, item 7.b, "Expenses of premises and fixed assets." Thus, the income to be included in this item should be reported gross rather than net of expenses incurred by the reporting bank or a consolidated subsidiary.

Exclude fees earned for providing securities custody, transfer agent, and other operational and ancillary services to third party mutual funds and annuities that are not sold on bank premises and are not otherwise sold by the reporting bank, through a bank subsidiary, or by affiliated or unaffiliated entities from whom the bank receives income at the time of the sale or over the duration of the account.

For purposes of this Memorandum item, a bank should include as employees individuals who, in form, are employed by an affiliate but who, in substance, do substantially all of their work for the reporting bank. However, banking organizations should not segregate the compensation component of other intercompany cost allocations arising from arrangements other than that described in the preceding sentence nor calculate the related pro rata number of full-time equivalent employees for purposes of this Memorandum item.

To convert the number of part-time employees to full-time equivalent employees, add the total number of hours all part-time and temporary employees worked during the quarter ending on the report date and divide this amount by the number of hours a full-time employee would have been expected to work during the quarter. **7      If the reporting bank has restated its balance sheet as a result of applying push down accounting this calendar year, report the date of the bank's acquisition.** If the reporting bank was acquired during the calendar year-to-date reporting period and applied push down accounting to its balance sheet in accordance with the "push down accounting" section of the Glossary entry for "business combinations," report the date (year, month, and day) as of which the acquisition took place. For example, a bank that was acquired as of the close of business June 1, 1997, and applied push down accounting to its balance sheet would report 19970601 in this Memorandum item in the Reports of Condition and Income for June 30, September 30, and December 31, 1997.

Push down accounting is the establishment of a new accounting basis for a bank in its separate financial statements (including its Call Report) as a result of a substantive change in control. When push down accounting is used to account for the acquisition of a bank that retains its separate corporate existence, the acquired bank's assets and liabilities (Schedule RC) are restated to their fair values as of the acquisition date. The bank's post-acquisition income statements (Schedule RI) only include amounts from the date of its acquisition through the end of the calendar year-to-date reporting period.

If the reporting bank has not been acquired during this calendar year or if the reporting bank has been acquired during this calendar year but push down accounting was not applied, the bank should report zeros (i.e., 00000000) in the year, month, and day columns of this Memorandum item.

**8      Trading revenue (from cash instruments and off-balance sheet derivative instruments).**

Memorandum items 8.a through 8.d are applicable only to banks filing the FFIEC 031, 032, and 033 report forms.

Report, in the appropriate item below, a breakdown of trading revenue that has been included in the body of the income statement in Schedule RI, item 5.c. For each of the four types of underlying risk exposure, report the combined revenue (net gains and losses) from trading cash instruments and off-balance sheet derivative instruments. For purposes of Memorandum item 8, the reporting bank should determine the underlying risk exposure category in which to report the trading revenue from cash instruments and off-balance sheet derivative instruments in the same manner that the bank makes this determination for other financial reporting purposes. The sum of Memorandum items 8.a through 8.d must equal Schedule RI, item 5.c.

**Memoranda****Item No.    Caption and Instructions**

**8.a Interest rate exposures.** Report in this item net gains (losses) from trading cash instruments and off-balance sheet derivative contracts that the reporting bank manages as interest rate exposures. Interest rate exposures may arise from cash debt instruments (e.g., U.S. Treasury securities) and interest rate contracts. Interest rate contracts are those contracts related to an interest-bearing financial instrument or whose cash flows are determined by referencing interest rates or another interest rate contract (e.g., an option on a futures contract to purchase a Treasury bill). Interest rate contracts include interest rate futures, single currency interest rate swaps, basis swaps, forward rate agreements, and interest rate options, including caps, floors, collars, and corridors.

Exclude trading revenue on contracts involving the exchange of foreign currencies (e.g., cross-currency swaps and currency options) that the reporting bank manages as foreign exchange exposures. Report such trading revenue in Memorandum item 8.b.

**8.b Foreign exchange exposures.** Report in this item net gains (losses) from trading cash instruments and off-balance sheet derivative contracts that the reporting bank manages as foreign exchange exposures. Foreign exchange exposures may arise from cash instruments (e.g., debt securities) denominated in non-U.S. currencies and foreign exchange rate contracts. Foreign exchange rate contracts are those contracts to purchase foreign (non-U.S.) currencies and U.S. dollar exchange in the forward market, i.e., on an organized exchange or in an over-the-counter market. A purchase of U.S. dollar exchange is equivalent to a sale of foreign currency. Foreign exchange rate contracts include cross-currency interest rate swaps where there is an exchange of principal, forward and spot foreign exchange contracts, and currency futures and currency options.

**8.c Equity security or index exposures.** Report in this item net gains (losses) from trading cash instruments and off-balance sheet derivative contracts that the reporting bank manages as equity security or index exposures. Equity security or index exposures may arise from equity securities and equity security or index (i.e., equity derivative) contracts. Equity derivative contracts are contracts that have a return, or a portion of their return, linked to the price of a particular equity or to an index of equity prices, such as the Standard and Poor's 500.

**8.d Commodity and other exposures.** Report in this item net gains (losses) from trading cash instruments and off-balance sheet derivative contracts that the reporting bank manages as commodity or other exposures. Commodity or other exposures may arise from commodities and off-balance sheet commodity and other contracts not reported as interest rate, foreign exchange, or equity derivative contracts. Commodity and other contracts are contracts that have a return, or a portion of their return, linked to the price or to an index of precious metals, petroleum, lumber, agricultural products, etc. Commodity and other contracts also include any other contracts that are not reportable as interest rate, foreign exchange, or equity derivative contracts.

**Memoranda****Item No.    Caption and Instructions****9        Impact on income of off-balance sheet derivatives held for purposes other than trading.**

Memorandum items 9.a through 9.c are applicable only to banks filing the FFIEC 031, 032, and 033 report forms.

For derivatives held for purposes other than trading, report the impact that these contracts had on the bank's income as reported in Schedule RI. The amounts to be reported include amounts recognized in Schedule RI in the period in which the transactions occur as well as the amortization in the year-to-date period of amounts previously deferred. Under current practice, many banks report periodic net settlements for many swaps and other amounts related to off-balance-sheet instruments accounted for on the hedge or accrual basis as components of the interest income, interest expense, and other noninterest income Call Report income statement (Schedule RI) items to which they relate.

For example, if a swap is intended to hedge interest rate risk on commercial loans, the bank may report the income or expense associated with net settlement accruals on that swap in the income statement items for "interest and fee income on commercial loans" in Schedule RI of the Call Report. There is no change to this existing reporting practice. In such a situation, the bank would also report these net settlement accruals in Memorandum item 9.a for the net increase (decrease) to interest income. As another example, if a swap is intended to hedge interest rate risk on money market deposit accounts, the bank may report the income or expense associated with net settlement accruals on that swap in the income statement items for "interest expense on money market deposit accounts" in Schedule RI of the Call Report. There is no change to this existing reporting practice. In such a situation, the bank would also report these net settlement accruals in Memorandum item 9.b for the net (increase) decrease to interest expense.

**9.a Net increase (decrease) to interest income.** Report the net sum of all amounts reported in Schedule RI interest income items (items 1.a through 1.f) which were recognized from off-balance-sheet derivative transactions used to hedge or adjust interest income from assets. If the net sum is a net decrease to interest income, enclose this amount in parentheses.

**9.b Net (increase) decrease to interest expense.** Report the net sum of all amounts reported in Schedule RI interest expense items (items 2.a through 2.e) which were recognized from off-balance-sheet derivative transactions used to hedge or adjust interest expense from liabilities. If the net sum is a net increase to interest expense, enclose this amount in parentheses.

**9.c Other (noninterest) allocations.** Report the net sum of all amounts reported in Schedule RI, but not reported in Memorandum items 9.a or 9.b above, which were recognized from off-balance-sheet derivative transactions for purposes other than trading. For example, include all amounts recognized from off-balance-sheet derivative transactions reported in other noninterest income (Schedule RI, item 5.f.(2)) and other noninterest expense (Schedule RI, item 7.c). If the net sum is a net expense or loss, enclose this amount in parentheses.

**Memoranda****Item No.    Caption and Instructions**

**9.c** A bank may use off-balance-sheet derivatives to hedge assets carried at the lower of (cont.) cost or market value (LOCOM) such as mortgages held for sale. If, in accordance with the instructions for the Reports of Condition and Income, the gains and losses on the derivatives are used to adjust the cost basis of these assets (rather than being recognized through earnings), include in this item the difference between (1) the actual calendar year-to-date change in the LOCOM valuation allowance, if any, that the reporting bank has included in the year-to-date earnings reported in Schedule RI, "Income Statement," and (2) the amount that the calendar year-to-date change in the LOCOM valuation allowance would have been if the gains and losses on these derivatives had been recognized through earnings and not deferred.

**10 Credit losses on off-balance sheet derivatives.**

Memorandum item 10 is applicable only to banks filing the FFIEC 031 and 032 report forms.

Report the bank's year-to-date credit losses (e.g., charge-offs) incurred on off-balance sheet derivative contracts (as defined for Schedule RC-L, item 14). The amount reported in this item should include all credit losses regardless of whether the bank charged such losses directly to income (e.g., trading revenue) or to another account (e.g., allowance for credit losses on derivatives).

**11 Does the reporting bank have a Subchapter S election in effect for federal income tax purposes for the current tax year?**

Indicate whether the bank is, for federal income tax purposes, either an "S corporation" or a "qualifying subchapter S subsidiary," as defined in Internal Revenue Code Section 1361, as of the report date. In order to be an S corporation, the bank must have filed a valid election with the Internal Revenue Service and obtained the consent of all of its shareholders. An election for a bank to be a qualifying subchapter S subsidiary must have been made by a bank's parent holding company, which must also have made a valid election to be an S corporation. In addition, the bank (and its parent holding company, if applicable) must meet specific criteria for federal income tax purposes at all times during which the election remains in effect. These specific criteria include, for example, having no more than 75 qualifying shareholders and having only one class of stock outstanding.

**12 Deferred portion of total applicable income taxes included in Schedule RI, items 9 and 11.**

(To be reported in the December report only.) Report that portion of the total applicable income taxes included in Schedule RI, items 9 and 11, which represents the deferred income tax expense or benefit for the year. In general, this amount is measured as the change in the bank's net deferred tax assets or liabilities during the year, excluding the portion of the change, if any, that is charged or credited directly to the separate component of equity capital for "Net unrealized holding gains (losses) on available-for-sale securities" (Schedule RC, item 26.b).

If the amount to be reported in this item is a tax benefit, enclose it in parentheses.

## SCHEDULE RI-A -- CHANGES IN EQUITY CAPITAL

### General Instructions

On the FFIEC 034, this schedule is to be completed for the report period ending December 31. On the FFIEC 031, 032, and 033, this schedule is to be completed quarterly.

Total equity capital includes perpetual preferred stock, common stock, surplus, undivided profits and capital reserves, and net unrealized holding gains (losses) on available-for-sale securities (and, on the FFIEC 031, cumulative foreign currency translation adjustments). All amounts in Schedule RI-A, other than those reported in items 1, 3, and 13 (items 1, 3, and 14 on the FFIEC 031), should represent net aggregate changes for the calendar year-to-date. Enclose all net decreases and losses (net reductions in equity capital) in parentheses.

### Item No.    Caption and Instructions

- 1    **Total equity capital originally reported in the December 31, 19xx, Reports of Condition and Income.** Report the bank's total equity capital balance as of the previous calendar year-end as originally reported in the Reports of Condition and Income before the filing of any amended report(s).  
  
For banks opened since January 1 of the current calendar year, report a zero or the word "none" in this item. Report the bank's opening (original) total equity capital in Schedule RI-A, item 5, "Sale, conversion, acquisition, or retirement of capital stock, net."  
  
Do not enter the bank's total equity capital ending balance from the Report of Income for the preceding quarter when preparing the June 30, September 30, or December 31 report.
- 2    **Equity capital adjustments from amended Reports of Income, net.** Include the net cumulative effect of all corrections and adjustments made in any amended report(s) on the total equity capital ending balance originally reported in the Reports of Condition and Income for the previous calendar year-end. State the dollar amount of and describe each adjustment included in this item in Schedule RI-E, item 4.  
  
Report a zero or the word "none" in this item if no amended report has been filed for the previous year-end report date.
- 3    **Amended balance end of previous calendar year.** Report the sum of items 1 and 2. If no amended report was filed for the previous calendar year-end reporting period, Schedule RI-A, item 3, must equal Schedule RI-A, item 1.
- 4    **Net income (loss).** Report the net income (loss) for the calendar year-to-date as reported in Schedule RI, item 12, "Net income (loss)."
- 5    **Sale, conversion, acquisition, or retirement of capital stock, net.** Report the changes in the bank's total equity capital resulting from:
  - (1) Sale of the bank's perpetual preferred stock or common stock. Limited-life preferred stock is not included in equity capital; any proceeds from the sale of limited-life preferred stock during the calendar year-to-date is not to be reported in this schedule.

**Item No.    Caption and Instructions**

**5**    (2) Exercise of stock options, including:  
(cont.)

- (a) Any income tax benefits to the bank resulting from the sale of the bank's own stock acquired under a qualified stock option within three years of its purchase by the employee who had been granted the option.
- (b) Any tax benefits to the bank resulting from the exercise (or granting) of nonqualified stock options (on the bank's stock) based on the difference between the option price and the fair market value of the stock at the date of exercise (or grant).
- (3) Conversion of convertible debt, limited-life preferred stock, or perpetual preferred stock into perpetual preferred or common stock.
- (4) Redemption of perpetual preferred stock or common stock.
- (5) Retirement of perpetual preferred stock or common stock.

- (7) Capital-related transactions involving the bank's Employee Stock Ownership Plan.

Include in this item:

- (1) The net decrease in equity capital which occurs when cash is distributed in lieu of fractional shares in a stock dividend.
- (2) The net increase in equity capital when a stockholder who receives a fractional share from a stock dividend purchases the additional fraction necessary to make a whole share.

For banks opened since January 1 of the year-to-date reporting period, report opening (original) equity capital in this item. Report all pre-opening income earned and expenses incurred from the bank's inception through the date the bank commenced operations in the appropriate items of Schedule RI, Income Statement.

**6    Changes incident to business combinations, net.** If the bank has entered into a business combination which became effective during the year-to-date reporting period and which has been accounted for as a pooling of interests, report the historical equity capital balances of the bank or other business acquired as of the end of the previous calendar year. For further information of poolings of interests, refer to the Glossary entry for "business combinations."

If the bank purchased another bank or business during the year-to-date reporting period, report the fair value of any perpetual preferred or common shares issued (less the direct cost of issuing the shares). Exclude the fair value of limited-life preferred stock issued in connection with purchase acquisitions. Refer to the Glossary entry for "business combinations" for further information on purchase acquisitions.

**Item No.    Caption and Instructions**

- 6** (cont.) If the bank has been acquired in a transaction accounted for using push down accounting, report in this item the initial increase or decrease in equity capital that results from the application of push down accounting, i.e., the difference between the bank's total equity capital as of the end of the previous calendar year and its restated equity capital after the push down adjusting entries have been recorded as of the acquisition date. For further information on push down accounting, refer to the Glossary entry for "business combinations."
- 7**    **LESS: Cash dividends declared on preferred stock.** Report all cash dividends declared on limited-life preferred and perpetual preferred stock during the calendar year-to-date, including dividends not payable until after the report date.

- For further information on cash dividends, see the Glossary entry for "dividends."
- 9**    **Cumulative effect of changes in accounting principles from prior years.** Report the cumulative effect, net of applicable income taxes, of those changes in accounting principles adopted during the calendar year-to-date reporting period that were applied retroactively and for which prior years' financial statements were restated.
- The cumulative effect of a change in accounting principle is the difference between (1) the balance in the undivided profits account at the beginning of the year in which the change is made and (2) the balance in the undivided profits account that would have been reported at the beginning of the year had the newly adopted accounting principle been applied in all prior periods.
- The cumulative effect, if any, of all other changes in accounting principles adopted during the calendar year-to-date reporting period must be reported in Schedule RI, item 11, "Extraordinary items and other adjustments, net of income taxes."
- State the dollar amount of and describe each cumulative effect included in this item in Schedule RI-E, item 5.
- Refer to the Glossary entry for "accounting changes" for additional information on how to report the effects of changes in accounting principles.
- 10**    **Corrections of material accounting errors from prior years.** Report the sum of all corrections, net of applicable income taxes, resulting from material accounting errors which were made in prior years' Reports of Condition and Income and not corrected by the filing of an amended report for the period in which the error was made. Include only those corrections which result from:

**Item No.    Caption and Instructions**

**10**    (1) Mathematical mistakes.  
(cont.)

(2) Mistakes in applying accounting principles.

(4) A change from an accounting principle that is neither accepted nor sanctioned by bank supervisors to one that is acceptable to supervisors.

State the dollar amount of and describe each correction included in this item in Schedule RI-E, item 6.

The effect of accounting errors differs from the effect of changes in accounting estimates. Changes in accounting estimates are an inherent part of the accrual accounting process. Report the effect of any changes in accounting estimates in the appropriate line items of Schedule RI, Income Statement. For further information on corrections of errors and changes in estimates, refer to the Glossary entry for "accounting changes."

**11**    **Change in net unrealized holding gains (losses) on available-for-sale securities.** Report the change during the calendar year to date in Schedule RC, item 26.b, "Net unrealized holding gains (losses) on available-for-sale securities." If the amount to be reported represents a reduction in the bank's equity capital, enclose it in parentheses.

## SCHEDULE RI-B -- CHARGE-OFFS AND RECOVERIES IN ALLOWANCE FOR LOAN AND LEASE LOSSES

For those banks required to establish and maintain an allocated transfer risk reserve as specified in Section 905(a) of the International Lending Supervision Act of 1983, in the agency regulations implementing the Act (Subpart D of Federal Reserve Regulation K, Part 351 of the FDIC's Rules and Regulations, and Part 20 of the Comptroller of the Currency's Regulations), and in any guidelines, letters, or instructions issued by the agencies, this schedule excludes charge-offs and recoveries of loans and leases through such an allocated transfer risk reserve and excludes a reconciliation of this reserve.

### **Part I. Charge-offs and Recoveries on Loans and Leases**

#### **General Instructions**

This part has two columns. In column A report loans and leases charged off against the allowance for loan and lease losses during the current calendar year-to-date. In column B report amounts recovered through the allowance for loan and lease losses during the calendar year-to-date on loans and leases previously charged off.

These instructions should be read in conjunction with the Glossary entry for "allowance for loan and lease losses" and "domicile."

#### **Item Instructions**

NOTE: The item instructions for part I for the FFIEC 033 and 034 report forms are presented on pages RI-B-1 through RI-B-4. The item instructions for part I for the FFIEC 031 and 032 report forms are presented on pages RI-B-5 through RI-B-7.

#### **Item Instructions for the FFIEC 033 and 034**

Schedule RI-B is one of four schedules (and one memorandum item) in the FFIEC 033 and 034 Reports of Condition and Income in which banks are permitted to report loan detail in terms of general loan categories that are based upon each bank's own internal loan categorization system. While the definitions for the general loan categories are left to the choice of each reporting bank, each bank must use consistent definitions for these categories in each of the four schedules and the memorandum item. For further information, refer to the discussion of "Reporting of Loan Detail by Banks with Assets of Less Than \$300 Million and No Foreign Offices" in the General Instructions section of this book.

#### **Item No.    Caption and Instructions**

- 1    **Real estate loans.** Report in columns A and B, as appropriate, real estate loans charged off and recovered. For further information, refer to the discussion of "Reporting of Loan Detail by Banks with Assets of Less Than \$300 Million and No Foreign Offices" in the General Instructions section of this book.

**Part II. Changes In Allowance for Loan and Lease Losses****General Instructions**

Report the reconciliation of the allowance for loan and lease losses on a calendar year-to-date basis. If the bank maintains separate allowances for loan losses and for lease losses, the amounts reported in this part should represent the combined balances of and transactions in the separate allowances. On the FFIEC 034, Schedule RI-B, part II is to be completed for the report period ending December 31.

The AICPA's Audit and Accounting Guide for Banks and Savings Institutions requires the allocation on the balance sheet of the allowance for credit losses between on-balance sheet financial instruments and off-balance sheet credit exposures. For purposes of these reports, banks should allocate the allowance for credit losses on Schedule RC, Balance Sheet, consistent with their allocation methodology for other financial reporting purposes. Portions of the allowance related to off-balance sheet credit exposures that are reported as liabilities should be reported in Schedule RC, item 20, "Other liabilities," and in item 4 of Schedule RC-G. However, banks should aggregate these components of the allowance for credit losses when completing Schedule RI-B, part II. Banks are encouraged to disclose the amounts of these components in Schedule RI-E, item 9, "Other explanations."

Exclude the balances of any capital reserves included in Schedule RC, item 26.a, "Undivided profits and capital reserves," and the effects of any transactions therein.

Refer to the Glossary entry for "allowance for loan and lease losses" for further information.

If the bank has entered into a business combination that became effective during the reporting period which has been accounted for as a pooling of interests, include the recoveries, charge-offs, and provisions of the combined bank or other business for the calendar year-to-date. Report the balance as of the end of the previous year of the allowance for loan and lease losses of the bank or other business acquired in the pooling in item 5, "Adjustments."

If the bank purchased another bank or business during the reporting period, include the recoveries, charge-offs, and provisions of the combined bank or other business only after its acquisition. Report the amount of the allowance for loan and lease losses of the bank or other business acquired as of the effective date of the business combination in item 5, "Adjustments."

If the bank was acquired in a transaction which became effective during the reporting period and push down accounting was used to account for the acquisition, include only the recoveries, charge-offs, and provisions from the effective date of the bank's acquisition through the end of the year-to-date reporting period. Report the change in the balance of the allowance for loan and lease losses from the end of the previous year through the effective date of the bank's acquisition in item 5, "Adjustments."

For further information on poolings of interests, purchase acquisitions, and push down accounting, see the Glossary entry for "business combinations."

## SCHEDULE RI-D -- INCOME FROM INTERNATIONAL OPERATIONS

### General Instructions

Schedule RI-D is applicable only to certain banks that file the FFIEC 031 report forms.

Banks with foreign offices, Edge or Agreement subsidiaries, or IBFs are required to estimate their net income attributable to international operations if these operations account for more than 10 percent of their total revenues, total assets, or net income; otherwise, the bank need not complete this schedule.

In contrast to the reporting requirements applicable to the Report of Condition and to other schedules of the Report of Income, several items of this schedule are not reported on a fully consolidated basis. That is, transactions or transfers between domestic offices and foreign offices of the bank are to be reported in part I, items 1.a and 1.b, and part II, items 1 and 2, rather than eliminated as would be required for full consolidation.

The amounts reported in part I, items 1.a and 1.b, and part II, items 1 and 2, shall be on an "as-booked" basis, that is, they should reflect only the amounts actually recorded on the books of the respective domestic offices, foreign offices, Edge or Agreement subsidiaries, and IBFs.

An estimate of the amount of income or expense attributable to international operations is reported in part I, items 3.a through 3.c, 5, and 7, and part II, items 3, 4, and 5. These estimates should reflect all appropriate internal allocations of income or expense, whether or not "booked" that way in the bank's formal accounting records. To the extent feasible, the bank should attempt to maintain consistency over time in its procedures for making such allocations.

### Part I. Estimated Income from International Operations

#### **1        Interest income and expense booked at foreign offices, Edge and Agreement subsidiaries, and IBFs:**

**1.a        Interest income booked.** Report total interest income (including fees and other interest associated charges) actually recorded on the books of foreign offices, Edge and Agreement subsidiaries, and IBFs. Intracompany interest income actually paid by domestic offices to foreign offices and recorded on the books of foreign offices should be included in this item. However, transactions among foreign offices, Edge and Agreement subsidiaries, and IBFs should be eliminated through consolidation of the foreign office segment. Interest income attributed to foreign offices for purposes of management information reports, stockholder reports, or other purposes but not actually booked at foreign offices should not be included in this item.

**1.b        Interest expense booked.** Report total interest expense actually recorded on the books of foreign offices, Edge and Agreement subsidiaries, and IBFs. Intracompany interest expense actually paid to domestic offices by foreign offices and recorded on the books of foreign offices should be included in this item.
